Through GovConPay's complex reporting capabilities, seamless payroll processing, and integration with Unanet, Patriot Enterprises successfully scaled the efficiency of their payroll, HR, and benefits administration as they grew beyond 500 employees.

“**GovConPay went above and beyond for us.** We'd grown beyond the limitations of our old system's reporting and customization, and **GovConPay spoke our language.**

We threw a lot of scenarios at them and expected them to problem solve and demonstrate the solutions in real-time. Their **knowledgeable team** consistently rose to the challenge.

What problem did they face?

As Patriot Enterprises expanded their business to more than 500 employees, their PEO couldn't keep pace with their growing HR, payroll, and benefit needs.

They needed a solution that offered a robust API integration with their finance and timekeeping system, Unanet, while also offering sophisticated, nuanced tracking for:

- Multiple Employee Classifications
- Federal & State Wage Updates
- Setting Effective Dates & Start Dates

Additionally, Patriot Enterprises wanted to empower managers to pull reports based on details like contract or location and submit changes in their HRIS directly, bypassing the complex jumble of disconnected forms they relied on previously.
